

## **ENVIRONMENTAL POLICY**

### **Marc Allan Construction Ltd**

Marc Allan Construction Ltd is committed to conducting its operations in an environmentally responsible manner and minimising the impact of its activities on the environment.

We recognise our responsibility to protect the environment, prevent pollution, and promote sustainable working practices throughout all areas of the business. Environmental management is regarded as an integral part of our operational and business activities.

Marc Allan Construction Ltd will:

- Comply with all relevant environmental legislation, regulations, and codes of practice.
- Reduce waste generation and promote recycling and responsible disposal of materials.
- Use resources, materials, water, and energy efficiently wherever practicable.
- Prevent pollution and minimise environmental risks associated with our activities.
- Encourage environmentally responsible practices among employees, subcontractors, and suppliers.
- Consider environmental impacts during planning, procurement, and project delivery.
- Maintain high standards of housekeeping and site environmental management.
- Promote sustainable construction methods and continuous environmental improvement.
- Monitor and review environmental performance regularly.

All employees and subcontractors are expected to cooperate fully with the Company's environmental objectives and work responsibly to minimise environmental impacts.

Overall responsibility for environmental management rests with:

Marc Allan  
Managing Director  
Marc Allan Construction Ltd

This policy statement will be reviewed annually or sooner where significant changes occur.
